

Detailed Table of Contents

1. Introduction	9	Bipolar Disorder.....	92
2. Normal Sleep	13	Schizophrenia.....	92
Polysomnography.....	18	Attention-Deficit Hyperactivity Disorder (ADHD).....	93
Mechanisms Underlying Sleep and Wakefulness.....	19	Substance Abuse.....	94
Arousal Neurophysiology.....	20	Neurological Comorbidities.....	95
Sleep Neurophysiology.....	21	Neurodegenerative Diseases and Insomnia.....	95
Transitioning Between Wakefulness and Sleep.....	21	Movement Disorders and Insomnia.....	97
Factors Modulating Arousal and Sleep.....	24	Sleep Disorders and Blindness.....	101
3. Definitions, Nosology, and Demographics	31	Sleep Disorders and Pain.....	101
Definition.....	31	Sleep-Related Breathing Disorders.....	102
Diagnostic Terms and Categorization.....	33	Chronic Obstructive Pulmonary Disease.....	102
DSM-5.....	34	Obstructive Sleep Apnea Syndrome.....	103
ICSD-3.....	35	Circadian Rhythm Sleep Disorders.....	105
ICD-11.....	37	Delayed Sleep-Phase Disorder.....	105
Demographics.....	37	Advanced Sleep-Phase Disorder.....	106
Populations at Risk for Insomnia.....	45	Time Zone Change Syndrome.....	106
Women.....	47	Shift-Work Disorder.....	106
Elderly Individuals.....	47	Free-Running Disorder.....	107
Other Risk Factors.....	48	Cardiovascular Comorbid Disorders.....	107
Summary.....	49	Gastrointestinal Disorders.....	108
4. Pathophysiology of Insomnia	51	Summary.....	110
Introduction.....	51	7. Evaluation of Insomnia	117
Neurophysiologic Models.....	51	Dimensions of the Insomnia Complaint.....	117
Hyperarousal.....	51	The Sleep-Wake Pattern.....	118
Circadian Rhythms.....	56	Sleep-Related Patterns and Behaviors.....	118
Genetic and Environmental Models.....	56	Daytime Symptoms and Behaviors.....	120
Psychological Models.....	58	Collateral Information.....	120
Psychoanalytic Models.....	58	Symptoms of Specific Sleep Disorders.....	121
Cognitive and Behavioral Constructs.....	59	Factors Influencing Patient History.....	121
5. Impairments and Burdens Associated with Insomnia	67	Medical, Psychiatric, and Surgical History.....	123
Impairments and Costs Associated With Insomnia.....	67	Medication.....	124
Cognitive Deficits.....	67	Substance Abuses.....	124
Reduced Functionality.....	68	Family History.....	124
Quality of Life.....	71	Social and Occupational History.....	125
Health Care Costs.....	71	Physical Examination.....	125
Development of Comorbid Disorders.....	73	Sleep Evaluation Tools.....	126
Cardiovascular and Metabolic Abnormalities.....	74	Sleep Monitoring.....	126
Psychiatric Disorders.....	77	Scales and Inventories.....	127
Mortality.....	79	Tests and Consultations.....	132
Conclusion.....	81	Summary.....	134
6. Disorders and Conditions Associated With Insomnia	85	8. Management of Conditions Comorbid with Insomnia	137
Introduction.....	85	Introduction.....	137
Psychiatric Comorbidities.....	86	Insomnia and Anxiety/Mood Disorders.....	137
Anxiety Disorders.....	89	Insomnia and Neurologic Conditions.....	148
Mood Disorders.....	90	Insomnia and Sleep-Related Breathing Disorders.....	148
		Insomnia and Circadian Rhythm Disorder.....	149
		Insomnia and Heart Failure.....	150
		Insomnia and Gastrointestinal Disorders.....	150
		Insomnia in Perimenopausal Women.....	151

9. Behavioral Strategies	155
Cognitive and Behavioral Therapies	155
Cognitive Behavioral Therapy for Insomnia.....	160
Variations in Methodology CBT Delivery.....	163
10. Nonprescription Agents	167
Nonprescription Agents.....	167
Antihistamines	167
Dietary Supplements and Herbal Agents	168
Summary	173
11. Pharmacologic Agents for Insomnia	175
Pharmacologic Treatments	175
Historical Aspects	176
FDA-Approved Hypnotics.....	178
Benzodiazepine Receptor Agonists.....	178
Melatonin Receptor Agonists	193
H ₁ -Receptor Antagonists.....	196
Orexin Receptor Antagonists.....	197
Other Clinical Considerations in the Use of	
Hypnotic Agents.....	215
Long-Term Use	215
PRN and Middle-of-the Night Use	223
Safety	228
Dependence, Abuse, and Other Precautions	230
FDA-Unapproved Agents for Insomnia	234
Sedating Antidepressants	234
Antiepileptic Drug	236
Atypical Antipsychotics	236
Clinical Practice Guidelines	236
12. Abbreviations/Acronyms	249
