

Detailed Table of Contents

Section A: *General Principles of Vaccinology and Vaccine Practice*

Chapter 1 Introduction to Vaccinology	
Immunization	
Live Vaccines	
Non-live Vaccines	
Passive Immunization	
Basic Vaccine Immunology	
Antibodies	
The Extrafollicular Reaction	
The Germinal Center Reaction	
Cytotoxic T Cells	
Additional Concepts	
Correlates of Protection	
Epidemiological Concepts	
Genetics of Vaccine Responses and Adverse Events	
Vaccines and Public Health	
Goals of Immunization Programs	
Public Health Impact of Vaccines	
Chapter 2 Vaccine Infrastructure in the United States	
Vaccine Development and Licensure	
Emergency Preparedness and Response	
Policy and Recommendations	
Monitoring Delivery	
Disease Surveillance	
The Vaccine Safety Net	
Vaccine Adverse Event Reporting System (VAERS)	
Vaccine Safety Datalink (VSD)	
Other Components of the Vaccine Safety Net	
Financing	
Supply	
Chapter 3 Standards, Principles, and Regulations	
Healthy People	
Standards for Immunization Practices	
Standards for Child and Adolescent Immunization Practices	
Standards for Adult Immunization Practices	
National Vaccine Injury Compensation Program (VICP)	
Vaccine Adverse Event Reporting System (VAERS)	
Vaccine Information Statements (VISs)	
Public Readiness and Emergency Preparedness (PREP) Act	
Occupational Safety and Health Administration (OSHA)	
Mandates and Exceptions	
Day Care Centers and Schools	
Hospitals and Other Institutions	
COVID-19 Vaccination Mandates	
Chapter 4 Vaccine Practice	
Handling, Storage, and Transport	
Improving Delivery	
Reminder, Recall, and Tracking Systems	

Missed Opportunities	
Medical Home and Immunization Neighborhood	
Immunization During the COVID-19 Pandemic	
Standing Orders	
School-Located Vaccination (SLV)	
Immunization Information Systems	
Immunization Coalitions	
Other Strategies	
Screening	
Administration	
General Issues	
Routes	
Anxiety, Pain, and Fever	
Emergencies	
Syncope	
Anaphylaxis	
Coding, Billing, and Costs	
Chapter 5 General Recommendations	
Ten Simple Rules by Which to Vaccinate	
Administration Errors	
Testing for Immunity	
Contraindications and Precautions	
Chapter 6 Vaccination in Special Circumstances	
Immune Deficiency States	
Chronic Medical Conditions	
Pregnancy, Postpartum, and Breast-Feeding	
Newborns	
Preterm and Low Birth Weight Infants	
Inborn Errors of Metabolism	
Adults ≥ 65 Years of Age	
Health Care Personnel	
International Adoptees, Refugees, and Immigrants	
Travel	
Miscellaneous Special Situations	
Coverage Rates in Special Populations	
Chapter 7 Addressing Concerns About Vaccines	
Communicating Risks and Benefits	
Understanding Vaccine Hesitancy	
Risk vs Benefit	
Communication Strategies	
Teaching Vaccine Confidence	
Vaccine Refusal	
Antivaccinationism	
The Costs of Public Concern	
General Issues	
Necessity of Vaccines	
Natural vs Vaccine-Induced Immunity	
Immune Overload and Alternative Schedules	
Adjuvants	
Additives	
Adventitious Agents	
Nonspecific Negative Effects	

Fetal Tissue.....	
Allergy and Autoimmune Disease	
Hygiene Hypothesis	
Asthma.....	
Allergies	
Type 1 Diabetes (T1D)	
Celiac Disease	
Other Autoimmune Diseases.....	
Autism	
Neurological Conditions.....	
Encephalopathy.....	
Guillain-Barré Syndrome.....	
Multiple Sclerosis, Transverse Myelitis, and Acute Disseminated Encephalomyelitis.....	
Bell's Palsy	
Narcolepsy	
Febrile Seizures.....	
Miscellaneous Concerns.....	
Sudden Infant Death Syndrome	
Kawasaki Disease.....	
Intussusception	
Immune Thrombocytopenia.....	
Miscarriage, Birth Defects, and Infertility.....	
Chronic Fatigue	
Clustered Anxiety-related Adverse Events	
COVID-19 Vaccines.....	
Chapter 8 Routine Schedules	

Section B: *Diseases and Vaccines*

Chapters 9 through 34 have the following subheadings:

- The Pathogen
- Clinical Features
- Epidemiology and Transmission
- Immunization Program
- Vaccines
- Immunogenicity, Efficacy, Effectiveness, and/or Impact
- Safety
- Recommendations

Chapter 9 Adenovirus.....	
Chapter 10 Anthrax	
Chapter 11 Cholera	
Chapter 12 COVID-19.....	
Chapter 13 Dengue	
Chapter 14 Diphtheria, Tetanus, and Pertussis	
Chapter 15 Ebola.....	
Chapter 16 <i>Haemophilus influenzae</i> type b.....	
Chapter 17 Hepatitis A.....	
Chapter 18 Hepatitis B.....	
Chapter 19 Human Papillomavirus	
Chapter 20 Influenza.....	
Chapter 21 Japanese Encephalitis	
Chapter 22 Measles, Mumps, and Rubella	
Chapter 23 <i>Neisseria meningitidis</i>	
Chapter 24 Polio.....	
Chapter 25 Rabies	
Chapter 26 Respiratory Syncytial Virus	
Chapter 27 Rotovirus	
Chapter 28 Smallpox, Mpox, and Other Orthopoxviruses	
Chapter 29 <i>Streptococcus pneumoniae</i>.....	
Chapter 30 Tick-Borne Encephalitis.....	
Chapter 31 Typhoid Fever	
Chapter 32 Varicella	
Chapter 33 Yellow Fever	
Chapter 34 Zoster.....	
Chapter 35 Combination Vaccines.....	
Chapter 36 Appendix
