

Detailed Table of Contents

Chapter 1 Prevalence of Obesity and Related Mortality	11	Non-alcoholic Fatty Liver Disease(NAFLD).....	63
Prevalence	11	Polycystic Ovarian Syndrome (PCOS)	63
Obesity and Mortality	13	Chronic Renal Failure (CRF)	64
All-Cause Mortality	14	GERD.....	65
Cause-Specific Mortality	15	Stress Urinary Incontinence (SUI).....	65
Chapter 2 The Pathophysiology of Obesity.....	23	Infertility.....	66
Energy Balance/Homeostatic Regulation of Food Intake	23	Pregnancy Complications	66
Hypothalamus as Key Regulator.....	24	Lower Limb Venous Disease (LLVD)	66
Peripheral Signaling.....	26	Metabolic syndrome.....	67
Humoral Signaling	28	Metabolically Healthy Obesity	67
Gastrointestinal Signals	28	Chapter 4 Benefits of Weight Loss	75
Adipose Signals	28	Introduction.....	75
Pancreatic Signals	30	DPP and DPPOS.....	75
Reward or "Hedonic" Pathway	30	Objectives and Design.....	75
Role of Obesity Pharmacotherapy	31	Prevention/Delay of Diabetes	76
Genetic and Environmental Factors.....	34	Reduction in Cardiovascular Risk Factors.....	80
Genetics	34	Incidence and Resolution of Metabolic Syndrome	81
Epigenetics	36	Look AHEAD.....	84
Environmental Factors	37	Objectives and Design.....	84
Genetics vs Environment.....	37	Reduction in Cardiovascular Events and Risk Factors	84
Gut Microbes.....	38	Remission of Diabetes	85
Medical Conditions.....	39	Magnitude of Weight Loss and Clinical Benefits	87
Cushing's Syndrome	40	Weight Loss in Patients with Class III Obesity	93
Hypothyroidism.....	40	Depression	93
PCOS	40	Obstructive Sleep Apnea	96
Growth Hormone Deficiency	40	Look AHEAD-E	100
Binge-Eating Disorder	40	ADAPT.....	100
Night-Eating Syndrome	41	Osteoarthritis	100
Sleep	41	Summary.....	101
Hypothalamic Obesity	41	Chapter 5 Approach to Patients With Obesity	105
Adaptive Responses and Hormonal Changes to Weight Loss	42	Introduction.....	105
Summary.....	43	Weight-Specific History	105
Chapter 3 Obesity-Related Comorbidities	47	Review of Weight-Promoting Medications	107
Introduction.....	47	Diagnosing Overweight and Obesity	107
Obesity and Inflammation	47	BMI	107
Prevalence of Major Comorbidities	50	Waist Circumference and Waist-Hip Ratio	109
Diabetes	50	Percent Body Fat	111
Dyslipidemia.....	53	Office Equipment and Atmosphere	113
Hypertension	54	Physical Examination	113
Other Coronary Heart Disease Risk Factors	54	Laboratory Evaluation	114
Obstructive Sleep Apnea	56	Baseline Laboratory Evaluation	114
Additional Comorbidities	57	Evaluation for Weight-Related Comorbidities	114
Osteoarthritis	58	Disease Staging and Risk Assessment.....	117
Cancer.....	59	Assessment of Motivation	117
Depression	60	Realistic Goal Setting	118
Anxiety.....	61	Creating a Treatment Plan	118
Gallbladder Disease	61		
		Chapter 6 A Complications-Centric Approach to the Treatment of Obesity	123
		A Holistic Perspective.....	123
		Obesity as a Disease.....	123

From Weight Loss to Risk Reduction	127
The Premise: Weight Loss Reduces Comorbidity and Mortality Risk	128
Evaluation, Risk Assessment, and Disease Staging	129
Edmonton Obesity Staging System (EOSS)	129
Metabolic Syndrome	130
Cardiometabolic Disease Staging System	131
A Medical Model for Management of Patients with Overweight/Obesity	135
Chapter 7 Drug-Induced Weight Gain	143
Treatment Selection to Prevent Drug-Induced Weight Gain	143
Antidiabetic Medications	144
Antihypertensive Medications	149
Anticonvulsant Medications	150
Contraceptives, Hormones, and Steroids	150
Antipsychotic and Antidepressive Medications	152
Other Medications That May Induce Weight Gain	153
Chapter 8 Dietary Interventions, Physical Activity, and Behavioral Approaches to the Treatment of Obesity	159
Dietary Interventions	159
Very Low Calorie Diets (VLCDs)	159
Protein-Sparing Modified Fast (PSMF)	160
Low Calorie Diets (LCDs)	161
Low Carbohydrate Diets	161
Low Energy Density Diets	161
Low Glycemic Index Diets	162
Mediterranean Diet	162
Intermittent Fasting	163
Meal Replacements	164
Comparison of Macronutrient Content	165
Limiting Consumption of Ultra-Processed Foods	166
Considering Food Order	167
Diet Composition Relative to Changes in Cardiometabolic Parameters	167
Physical Activity	168
Behavioral Modification	171
Self-Monitoring of Dietary Intake	171
Trigger or Stimulus Control	172
Problem-Solving Techniques	172
Cognitive Restructuring	172
Relapse Prevention	172
Intensive Lifestyle Intervention	173
Commercially Available Lifestyle Interventions with Evidence-Based Findings	174
Use of Remote and Mobile Technologies in Behavioral Weight-Loss Programs	176
Comprehensive Lifestyle Interventions	178
Chapter 9 Pharmacologic Treatment	183
Phentermine	186
Efficacy	186
Safety	187
Prescribing and Administration	187
Olistat (Xenical)	200
Efficacy	200
Safety	201
Prescribing and Administration	201
Phentermine/Topiramate ER (Qsymia)	202
Efficacy	202
Long-Term Efficacy	207
Secondary Efficacy Endpoints	210
Safety	211
Prescribing and Administration	215
Naltrexone SR/Bupropion SR (Contrave)	216
Efficacy	216
Safety	225
Prescribing and Administration	225
Liraglutide (Saxenda)	229
Efficacy	229
Liraglutide for Treatment of Obesity in Adolescents	235
Safety	235
Prescribing and Administration	238
Semaglutide (Wegovy)	239
Efficacy	241
Safety	258
Prescribing and Administration	260
Tirzepatide (Zepbound)	261
Efficacy	261
Safety	274
Dosing, Administration, and Prescribing	275
Summary	276
Chapter 10 Bariatric Interventions	281
Introduction	281
Bariatric Devices and Endoscopic Procedures	281
Intragastric Balloons	283
Endoscopic Sleeve Gastroplasty (ESG)	285
Primary Obesity Surgery Endolumenal (POSE)	286
Orally-Administered Gastric Hydrogel	288
Aspiration Therapy (AT)	292
EndoBarrier	294
vBloc	295
Transpyloric Shuttle	296
Conclusion	298
Candidates and Qualifications for Bariatric Surgery	298
Bariatric Surgical Procedures	298
Roux-En Y Gastric Bypass (RYGB)	301
Laparoscopic Sleeve Gastrectomy (LSG)	303
Biliopancreatic Diversion With Duodenal Switch (BPD/DS)	304
Single Anastomosis Duodeno-Ileal Switch (SADI-S)	306
Adjustable Gastric Band (AGB)	308

Clinical Experience.....	310
Systematic Reviews and Meta-analyses.....	310
Individual Studies.....	312
The Swedish Obese Subjects Study	316
Safety	316
Surgery as Diabetes Treatment.....	318
Bariatric Surgery and Obstructive Sleep Apnea.....	322
Bariatric Surgery in Adolescents	323
Postsurgical Care	324
Summary.....	325
