

# The Pediatric Infectious Disease Journal<sup>®</sup> Newsletter

December 2001

by John D. Nelson, M.D. and George H. McCracken Jr., M.D.

---

**FIRESIDE READING** If you are looking for an evening of pleasurable and educational reading, try the new little (4 by 7½ inches) book called *Diagnosis and Management of Acute Otitis Media* written by Stan Block and Christopher Harrison. Stan is a private practitioner in Bardstown, KY and has collaborated for several years with Chris, who is based at the University of Louisville School of Medicine. They have done studies of otitis media, pneumonia and sore throat that have yielded a rich harvest of practical tips for treatment. Skimming this little book is like taking a refresher course in all aspects of acute otitis media. You can order this book by calling 1-800-337-9838 or check the website [www.pcibooks.com](http://www.pcibooks.com).
